I. Project plan

A project is more than a cool idea

I. Project plan

A project is more than a cool idea

What methods are you going to implement to reach your goal?

I. Project plan

A project is more than a cool idea

What methods are you going to implement to reach your goal?

What are the potential outcomes of your project?

I. Project plan

A project is more than a cool idea

What methods are you going to implement to reach your goal?

What are the potential outcomes of your project?

How will you disseminate the outcomes of your project?

I. Project plan

I. Project plan

Project title
(the idea, a question)

I. Project plan

Project title (the idea, a question)	Methods
---	---------

I. Project plan

Project title (the idea, a question)	Methods	Outcome
---	---------	---------

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
---	---------	---------	---------------

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours			

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype		

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent			

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/performance		

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/performance	• A novel performance involving an improvisational agent	

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/ performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?			

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/ performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?	• Interviews with creative writers • Analysis of the interviews		

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?	• Interviews with creative writers • Analysis of the interviews	• Research insights	

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/ performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?	• Interviews with creative writers • Analysis of the interviews	• Research insights	• An academic paper submitted to a conference on cognition and creativity

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/ performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?	• Interviews with creative writers • Analysis of the interviews	• Research insights	• An academic paper submitted to a conference on cognition and creativity

Prototype design and building

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/ performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?	• Interviews with creative writers • Analysis of the interviews	• Research insights	• An academic paper submitted to a conference on cognition and creativity

Prototype design and building

Performance Composition

I. Project plan

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• A survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project
Musical co-improvisation with an AI agent	• Related work of existing co-improvisation agents • Composition of a semi-improvised piece/ performance	• A novel performance involving an improvisational agent	• Video recording of the performance published online (OMA, YouTube, others..) • Music scores and descriptions of the piece posted on a static website
What is the role of large language models among creative writers?	• Interviews with creative writers • Analysis of the interviews	• Research insights	• An academic paper submitted to a conference on cognition and creativity

Prototype design and building

Performance Composition

Research Investigation

I. Project plan

A project idea must be coherent with its method, expected outcome, and dissemination

I. Project plan

The project’s creativity and quality is also about those columns !

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	• Survey among visitors to understand their experience with audioguides • Implementation of a prototype	• Survey responses and insights • A working prototype	• A public code repository of the prototype • A blog post about the project

I. Project plan

II. Roles

III. Assignment

II. Roles

Assign roles with concrete tasks

Developer

Responsibilities:

1. System development
2. Repository maintenance and documentation

Skills:

Programming, Python and machine learning libraries.

Journalist

Responsibilities:

1. Synthesizing relevant sources
2. Writing and proofreading
3. Dissemination

Skills:

Reading scientific papers, Google Scholar and LaTeX/Overleaf.

Data Scientist

Responsibilities:

1. Statistical analysis of performance metrics
2. Reporting results through figures, tables and text
3. Supporting the other two roles

Skills:

Maths, statistics and visualization libraries (Seaborn, Matplotlib).

II. Roles

Assign roles with concrete tasks

- Roles have to be agreed as a team
- You can invent new roles

I. Project plan

II. Roles

III. Assignment

III. Assignment

By the end of the day...

Please fill the [following spreadsheet](#) with:

- Project idea
- Methods
- Expected Outcome
- Dissemination
- Project members & roles

I. Project plan

II. Roles

III. Assignment

Any questions?
